ALPAY MERMER

SANAYI VE TICARET A.S

Alpay mermer is one of the biggest white marble producer in the world. Since its origins in 1996, the company has grown progressively and has expanded with great force in the international market. Alpay Mermer has its own white marble quarry as well as an extraordinary logistics and distribution network, which means guaranteed supply. Blanco Ibiza (Mugla White) is one of the most preferred products of the designers, increases the feeling of width in the places where it is applied, and offers elegance and brilliance together.

MRT

MADEN SANAYI VE TICARET A.S

As MRT Mining Industry and Trade Inc., we were established in 2013 with the goal of identifying the most productive economic mines and marble reserves that are visually appealing and bringing them into the economy by operating them with the least amount of environmental impact and carbon footprint. Recently, we have continued to operate marble and mining businesses in several parts of Turkey while also doing reserve research in Turkey and other nations.

SEZGIN MERMER SAN. VE TIC. A.Ş

Sezgin Marble was founded in 2007 by two-entrepreneurs Reyhan Sezgin and her partner Ozgur Sezgin under the manifesto: " Supporting Turkish Natural Stone to reach the value it deserves in the international market."

With its own quality control management system, Sezgin Marble now works with 476 quarries and more than 600 different types of Turkish natural stone. Our vision, teamwork, and passion for stone have led us to be ranked as the largest marble exporter trading company in Turkey according to the Aegean Exporters' Association. In addition, our company has grown by supporting project-making companies, supplying Turkish Stones to a number of major projects worldwide, including Porsche design tower, Fendi Chateau building, Acqualina Estates, Jade Signature and more.

SUAYP DEMIREL

MADENCİLİK INSAAT İTHALAT ve İHRACAT SAN. ve TIC LTD. STİ.

In 1983, it made its first export as a marble block under the name of Suayp Demirel Import, Export and Tourism. In 1984, it continued to produce marble as the Suayp Demirel Marble Factories and on 03.08.1990, it continued to contribute to the Turkish economy, taking the name DEMMER A.S. Demmer Demireller Marble Industry and Trade Inc. was established on an area of 110,000 m² in the Iscehisar Marble Industrial Zone, known as the heart of Turkish marbles, on the 22nd km of Afyon - Ankara highway and has a closed area of 30,000 m². Demmer produces with its qualified manpower, its structure that follows the technology, its innovative approach, its modern factories and the stones it provides from its own quarries, providing quality, continuity and high capacity according to the demands of the whole world. Today, Demmer has focused on the production of beige and travertine for the demands. Currently, it operates 6 quarries for travertine, 4 quarries for marble, 7 quarries for beige, and 1 quarry for limestone and sandstone. The total annual production of the quarries is approximately 160,000 m³. DEMMER A.S. processes 35% of this production in its own factories and offers it to the world market as semi-finished and finished materials. In 2011, Demmer A.S.'s export capacity is approximately 500-600 containers per month.
